

# Startup View Install instructions

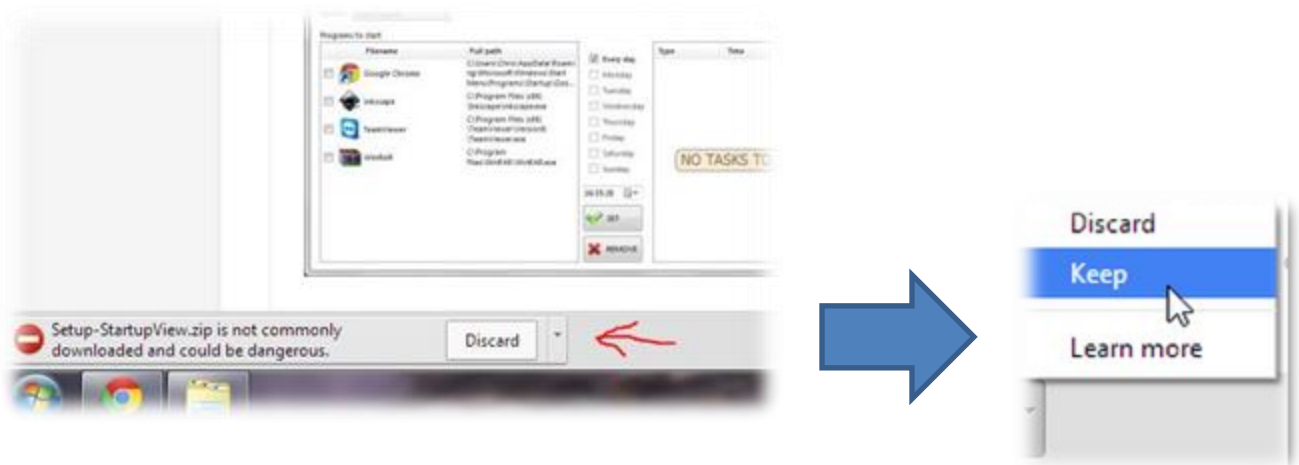

## Step 1

Click on the “Download” button to start downloading Startup View

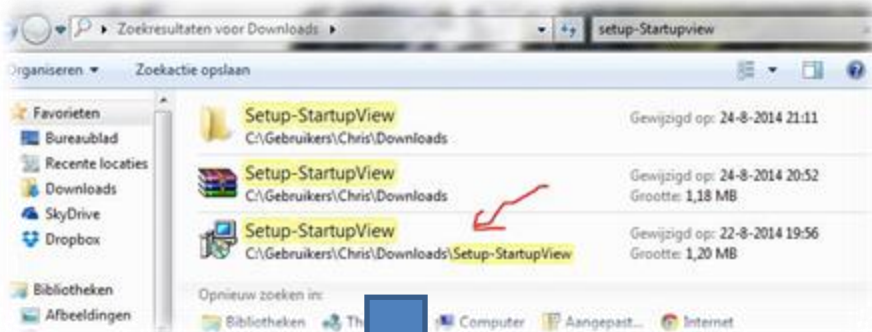

## Step 2

If this message appears click on the little arrow pointing down and choose the “Keep” option.

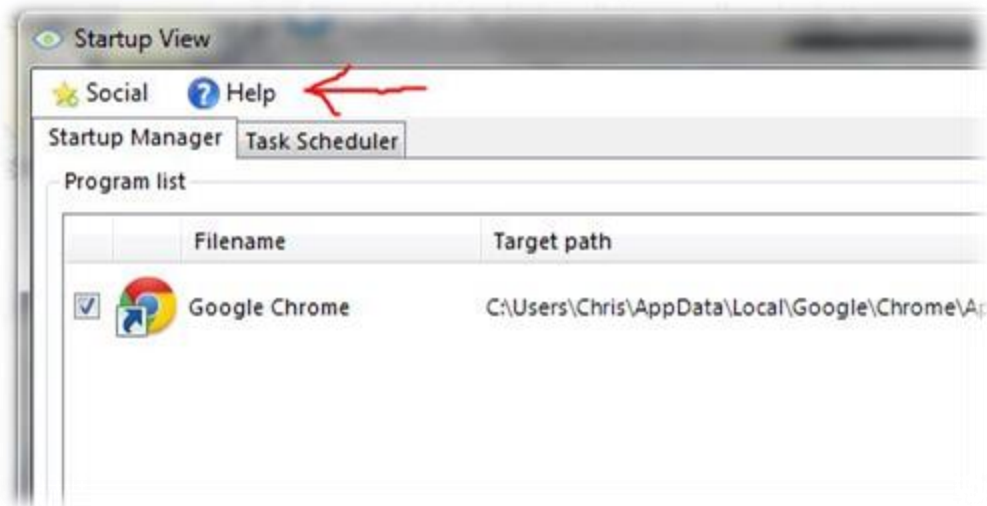

## Step 3

Find the Setup-StartupView.exe file, run it and follow the install instructions

## Step 5

If you purchased a full version license you can register it by clicking on the help menu and then on register, a textbox will show up where you can enter the full version license you've purchased from our site.
